# RED8

MANAGE AND SECURE
WITH RADD

Red8 Active Directory Dashboard (RADD) gives you peace of mind knowing your IT environment is working to the best of its ability. With real-time AD dashboards, find potential failures before they cause an outage or unnecessary downtime. Your customized dashboard allows users to make data-based decisions with best practices applied such as tombstone lifetime, site connectors, and much more!

Red8 Offering

- AD Replication Status and Health
- AD Best Practices
- Recommendations for Remediation
- No Azure Expertise or Previous Usage Necessary

Additional Benefits

- Domain Controller Metrics (CPU / Memory / Network)
- Application Mapping of Domain
- DNS Monitoring and Best Practices
- System updates for Windows and Linux

Ready to put your mind at ease?
